 Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

:
         Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                      2014.5

"Complete genome sequence of Pseudomonas aeruginosa PAO1, an opportunistic pathogen.";

INATURE 406:959-964 (2000).

Nature 406:959-964 (2000).

Lord ACTIVITY: Pyruvate and glyceraldehyde 3-phosphate to yiel of the coxy-D-xylulose-5-phosphate (DXP).

C --- CATALYTIC ACTIVITY: Pyruvate + D-glyceraldehyde 3-phosphate = 1.

COPACTOR: Binds 1 thiamine pyrophosphate per subunit (By estation).
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        "Tools for discovery of inhibitors of the 1-deoxy-D-xylulose 5-phosphate (DXP) synthase and DXP reductoisomerase: an approacenzymes from the pathogenic bacterium pseudomonas aeruginosa.", FEMS Microbiol. Lett. 190:329-333(2000).
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 Pseudomonas aeruginosa.
